Choose withanolides 2.5%, 5% or 10% by HPLC, or send us your own specification.

Buyer notes

We supply root only. India's food regulator (FSSAI advisory, April 2026) limits food use to root and root extract, and many buyers now ask for the plant part on the COA. Ask for the test method (HPLC), heavy metals and microbiology reports.

Percentages shown are typical commercial grades. The exact grade and test method are confirmed on the COA / TDS for each order.

Before you book

Weight per container depends on bulk density, pack size and whether the cargo is palletised. We quote a load only after the manufacturer confirms the pack size and the forwarder confirms the container. Wooden pallets must be ISPM-15 heat-treated and stamped, or use plastic pallets. Use a food-grade, clean, dry, odour-free container, with a liner and desiccant for sea freight of spices, seeds and powders.
