Buyer notes

For bleached ginger, state the sulphur dioxide limit your market allows. Ask for pesticide residue and microbiology reports. Ginger is a spice and an extract, so also see our Spices catalogue.

Percentages shown are typical commercial grades. The exact grade and test method are confirmed on the COA / TDS for each order.

Before you book

Weight per container depends on bulk density, pack size and whether the cargo is palletised. We quote a load only after the manufacturer confirms the pack size and the forwarder confirms the container. Wooden pallets must be ISPM-15 heat-treated and stamped, or use plastic pallets. Use a food-grade, clean, dry, odour-free container, with a liner and desiccant for sea freight of spices, seeds and powders.
